1.0 Introduction

Australian Gambling Statistics (AGS) is the official collection of Australian data on legalised regulated gambling. The AGS is produced by the Queensland Government Statistician's Office (QGSO) in cooperation with all state and territory racing and gaming authorities. These authorities provide data on turnover, expenditure, and government revenue for each form of gambling within their jurisdiction. Where actual data are not available, the relevant authorities are encouraged to estimate the data and provide explanations of estimation methods.

The reference period for the 41st edition of AGS is the 2024–25 financial year. Timeseries are available back to 1999–00, however, may be affected by certain events such as the introduction of point of consumption (POC) tax.

The State, Product and Summary output tables should be read in conjunction with these Explanatory notes as they contain key information relating to background, definitions, jurisdiction specific legislation and other developments.

1.1 Background

The development of statistics on gambling on a national basis was formally proposed at the June 1983 Conference of Government Racing Officials held in Darwin. At this conference, members agreed to draw attention to the relative absence of reliable economic and social data on gambling, and resolved that this information be collected, collated, and shared on a national basis.

Led by the existing statistical collections of the (then) Tasmanian Racing and Gaming Commission (the Commission), other state and territory governments developed their own statistical databases to assist in the compilation of a national gambling statistical record.

At the September 1983 Racing and Gaming Ministers' Conference held in Melbourne, it was resolved:

> *That the conference approves the establishment of a national statistical data bank and each state and territory agree to submit all available racing and gaming statistics in a consistent format to the Tasmanian racing and gaming commission for collation and analysis.*

In line with the conference resolution, the Commission, with the assistance of a firm of economic consultants, extracted from published records significant quantities of data relating to gambling turnover in each state and territory since 1972. The first consolidation and assessment of these data was produced for the Racing and Gaming Ministers' Conference in late 1984. At the Commission's request, the report was made publicly available.

The Tasmanian Gaming Commission (the renamed Commission) continued to produce annual statistics until 2004, when QGSO (formerly the Office of Economic and Statistical Research) within Queensland Treasury, was endorsed by jurisdictional department heads to produce the publication on an ongoing basis.

1.2 Events affecting data

Gambling policy and legislation

Gambling policy and legislation in Australia have traditionally been the role of the states and territories rather than the Commonwealth. Relevant state-based legislation is detailed in state and territory summaries in Section 3.

COVID-19 pandemic

The COVID-19 pandemic impacted on the availability of gambling activities in Australia from 2020 until 2022, with land-based gambling venues temporarily closed and major national and international sporting codes suspended. Gambling data should be considered in the context of COVID-19 related restrictions.

Point of consumption tax

Changes in the way the wagering industry is structured, including the growth of online wagering, have led all jurisdictions, except the Northern Territory, to introduce a point of consumption tax.

1.3 Cautionary note

While all care has been taken in the preparation of AGS, each jurisdiction has its own systems, processes and reporting methods, and the availability of data can vary. Thus, care should be taken when comparing data between jurisdictions. All tables should be read in conjunction with the Explanatory notes. In some instances, data contained in previous editions have been corrected or amended. These corrections or amendments are noted within the relevant table(s).

2.2 Glossary

The following terms are used in AGS:

Casino	Figures represent wagers at casinos and include wagers on table games, gaming machines and keno systems.
Casino turnover	For the purposes of this report, casino turnover is represented by handle, which is the amount of money exchanged for gaming chips at a gaming table. Unfortunately, it is not possible to measure the total amount wagered (including re-investment of winning bets) at table games. Therefore, care should be taken if analysing casino turnover figures.
Expenditure	These figures relate to the net amount lost or the amount wagered less the amount won. Alternatively, it is the gross profit due to the operators of each form of gambling.
Gambling	The placement of a wager or bet on the outcome of a future uncertain event. Gambling includes gaming and wagering activities. The statistics presented in this publication are for legalised regulated gambling. In addition, the statistics for each individual state or territory include turnover and expenditure generated by overseas and interstate visitors as well as those generated by residents of that state or territory.
Gaming	All legal forms of gambling other than wagering, such as lotteries, gaming machines, casino, interactive gaming and minor gaming.
Gaming machines	All jurisdictions, except Western Australia, have a statewide gaming (poker) machine network operating in clubs and hotels. **Please note:** The data reported under this heading exclude gaming machine data from casinos. Gaming machines accurately record the total value of bets on gaming machines, including bets made using credits won during play. Turnover is the amount of money bet, regardless of whether that bet is won or lost. Turnover does not represent player losses. Thus, turnover is an actual figure for each jurisdiction. In most jurisdictions, operators must return at least 85 per cent of wagers to players as winnings, either by cash or a mixture of cash and product over the lifetime of the gaming machine. In some jurisdictions, gaming machines may be linked together to offer major jackpots.

Government revenue	The revenue received by state governments from gambling activities that are subject to state taxes and levies.
Gross household disposable income	Household disposable income (HDI), presented in Table 1, below, is the gross household income less: • income tax payable • other current taxes on income, wealth etc. • consumer debt interest • interest payable by unincorporated enterprises and dwellings owned by persons • net non–life insurance premiums • other current transfers payable by households. When interpreting gambling figures as a proportion of HDI, by state and territory, users of the data should note that such data represent expenditure within the jurisdiction concerned and therefore should not be adjusted for interstate or international gamblers. No relevant data are collected on interstate gamblers.

Interactive gaming	Gambling on activities conducted via the internet. It specifically excludes wagering in the form of racing and sports betting, keno and lotteries via the internet. Interactive gambling services provided to Australian residents by an internet casino are banned under the Commonwealth *Interactive Gambling Act 2001* (IGA) which came into effect in August 2001.
Keno	Keno is a game where a player wagers that their chosen numbers match any of the 20 numbers randomly selected from a group of 80 numbers via a computer system or a ball-draw device. Keno payouts are established by rules and consist of a fixed pay scale (independent of the total wager made on the game) and, in some cases, a jackpot component.
Lotteries	Includes lotteries, lotto, pools and instant scratchies. In June 2018, pools was withdrawn from the Australian lottery market.
Minor gaming	The collective name given to raffles, bingo, lucky envelopes and the like.
Point of consumption tax (on Wagering)	A tax collected from betting operators in all states and territories, except the Northern Territory, to generate revenue from wagering. "Point of consumption" means the tax is payable where the bet was placed, although in some jurisdictions, operators are permitted to rely on the address information of account-based customers. Gambling products including gaming machines, casino games and lotteries are not subject to the tax. Also refer to Section 1.2.
Population	Mean estimates of the population aged over 18 years are presented in Table 2, below. The same caveat relating to the influence of visitors on the estimates reported in the Household disposable income (HDI) tables is also relevant to the interpretation of those reported in the per capita tables.

'Real' variables

All dollar figures are given in nominal terms except where a table is denoted as being in real terms. Real dollar figures have had the effects of inflation removed. These values are calculated by specifying a base year (in this instance 2024–25) and 'deflating' each previous year by the Consumer Price Index (CPI). This means that all data in a table showing real values may be compared directly, the effects of inflation having been removed.

The CPI, presented in Table 3, is a measure of change over time in the retail price of a constant basket of goods and services which is representative of consumption patterns of households in metropolitan areas.

Turnover	An expression used to describe the amount wagered. This does not include any additional charges that may also be paid at the point of purchase, such as selling agents' commission in the case of lotteries (except where noted in tables). Electronic gaming machine (EGM) turnover, relates to credits played in an EGM, rather than the amount of money inserted into the EGM.
Wagering	All legal forms of gambling on racing, sporting events and other approved events (e.g., elections). Wagering includes all the racing and sports betting activities.

New developments

Gaming harm minimisation reforms

The following initiatives took effect from 1 July 2024:

- mandatory Responsible Gambling Officers (RGOs) in venues with more than 20 gaming machine entitlements
- banned the placement of any signage or advertising relating to gaming machines either on, or visible from a cash withdrawal facility (automatic teller machine (ATM) or EFTPOS terminal)
- mandatory Advanced Responsible Conduct of Gambling (ARCG) training for all RGOs
- mandatory for all venues with gaming machines to maintain a Gambling Incident Register.

From 1 September 2024 it became mandatory for all venues with gaming machines to keep a Gaming Plan of Management.

Lottery and Keno rule changes

On 18 July 2024, the Keno Rules were amended to reduce the maximum ticket purchase limit from $9,999 to $1,000, reduce the cash payout limit from $9,999 to $5,000, and reduce the threshold for which a 24-hour

transfer delay is implemented on winning tickets purchased in venue via the Internet Platform from $9,999 to $2,000. These changes were intended to reduce the gambling harm and financial crime risk profile of Keno products.

On 10 March 2025, the Instant Lotteries (Scratch-it) Rules were amended to introduce a new $30 instant scratch-it product to replace one of the existing $20 instant scratch-its. The top prize of $1.5 million is the highest for instant lotteries.

Extension of the date for implementation of reduced daily cash limit for casino patrons

From 19 August 2024, Section 73A of the *Casino Control Act 1992* (NSW) (CCA) came into effect, requiring that casino operators must not accept more than $1,000 in cash from a customer in a day for wagering purposes.

In recognition of the significant technological and operational challenges to transition to carded play, the NSW Government provided casino operators until 19 August 2025 under a transitional arrangement to comply with the reforms, with a $5,000 limit in effect during this transitional period.

In August 2025, the NSW Government determined to extend the transitional arrangement so that the $5,000 limit remains in effect for another two years, until 19 August 2027.

- Racing and sports betting - Expenditure, Revenue & Turnover

Notes to the Tables from 2021–22 to 2024–25

Casino	Government revenue from gaming figures does not include contributions to the Responsible Gambling Fund required by the *Casino Control Act 1992* or the *Gaming Machines Act 2001*. Restricted gaming facility commenced operations on 8 August 2022.
Lotteries	Turnover figures are net sales (that is, not including agent commission).

Specific notes

The 38th, 39th and 40th editions (previous editions) of the AGS represented only turnover derived from TAB Limited and some NSW Licensed Bookmaker's authorised under Section 16(1) and 19(2) of the *Betting and Racing Act 1998* with regard to the racing and sports betting category.

For the previous editions and the current 41st edition of the AGS, the turnover figure for racing and sports betting now includes turnover derived from TAB Limited and Betting Service Providers (BSPs) who have been liable to pay Point of Consumption Tax and have lodged an annual reconciliation return.

In NSW, BSPs with net wagering revenue from NSW residents of $1 million per year or greater are required to lodge an annual reconciliation return. Turnover derived from smaller bookmakers may not be captured in this table. Although not exhaustive, this now captures turnover by NSW residents of NSW based BSP's, and also those BSPs located in other states and territories but servicing NSW residents.

When introduced in 2019, the point of consumption tax rate was set at 10 per cent of net wagering revenue. It was increased to 15% on 1 July 2022.

3.2 Victoria

Legislation

Legislation governing the regulation, supervision, and control of gambling activities in Victoria includes:

- *Casino Control Act 1991*
- *Casino (Management Agreement) Act 1993*
- *Gambling Regulation Act 2003*
- *Racing Act 1958*
- *Victorian Gambling and Casino Control Commission (VGCCC) Act 2011*
- *Gambling Taxation Act 2023.*

The Victorian legislation can be accessed from the Victorian Legislation and Parliamentary Documents website at https://www.legislation.vic.gov.au/ under Victorian Law Today.

New developments

Introduction of the Mandatory Shutdown Period

A mandatory shutdown period for gaming machines in Victorian hotels and clubs was introduced under Section 3.5.22 of the Gambling Regulation Act 2003. It requires all gaming machines in Victorian hotel and club venues to cease operation daily between 4:00 AM and 10:00 AM. This provision came into effect on 30 August 2024.

Increase in Wagering tax

On 1 July 2024, the point of consumption tax (POCT) for wagering products increased from 10% to 15%.

General industry information

Tabcorp VIC Pty Ltd (Tabcorp) was granted a new Wagering and Betting Licence in Victoria on 18 December 2023, which commenced on 16 August 2024 following the expiry of the previous licence. The licence provides Tabcorp with exclusive rights for 20 years to operate the state's off-course retail wagering network, including TAB outlets and betting terminals. However, this exclusivity does not extend to all wagering services. Approved bookmakers can still operate on-course, and licensed wagering service providers from other jurisdictions may offer online betting to Victorian customers.

New developments

2024-25

During 2024–25, Queensland increased investment in its Gambling Help Service System to approximately $17 million[1] per year to expand the Gambling Helpline, strengthen regional and remote service delivery, enhance community education and digital information, and increase supports for at-risk and vulnerable Queenslanders.

The Queensland Government progressed implementation of the Queensland Audit Office's 2024 *Minimising gambling harm* audit recommendations, completing six of the ten recommendations during the reporting period. Initiatives improved the accessibility and cultural appropriateness of Gambling Help services for First Nations peoples, culturally and linguistically diverse communities, and young Queenslanders.

Work commenced to establish dedicated gambling financial counselling positions across Queensland's 11 Gambling Help regions, alongside implementation of a First Nations gambling harm screening tool and research into online gambling among young First Nations males to inform future prevention efforts.

Queensland continued its *Forget the bet. Enjoy the game.* campaign with Queensland Cricket and Queensland Rugby League to raise awareness of gambling harm and available support.

The government also improved regulatory efficiency across the liquor and gaming sectors by streamlining licensing processes, with more than 92 per cent of licence applications lodged online and expanded digital payment options introduced.

Industry engagement remained a priority through liquor accords and Safe Night Precinct boards and partnerships with licenced venues, Queensland Police Service and community organisations. Compliance activities continued to focus on higher-risk operators using a risk-based approach.

The statewide gaming machine cap for hotels and clubs remained unchanged. During the year, legislation was announced to increase the maximum number of gaming machines permitted for eligible community clubs operating across multiple premises, while maintaining the statewide cap and the limit of 300 machines at any individual club.

[1] The $17M includes employee expenses to support the programs that would not necessarily be considered direct investment

Casinos

In 2024–25, reformed laws to further strengthen casino integrity, prevent money laundering and minimise gambling harm were commenced. Under these enhanced laws, Queensland casinos are required to:

- pay an annual casino supervision levy to fund casino oversight and regulation and gambling harm minimisation programs
- take steps to exclude people who are known to be banned from entering interstate casinos by an interstate police commissioner
- share the details of particular types of exclusions with other Queensland casino operators
- seek the express and informed consent of a person before sending promotional or advertising materials directly to the person.

In 2024–25, Queensland also monitored the first permanent closure of a Queensland casino, the Treasury Casino in Brisbane, and the opening of The Star Brisbane at the Queen's Wharf precinct. Casino integrity, including gambling harm minimisation, was closely monitored through the uplift of approved controls for casino operations and compliance activities targeted towards the potential risks associated with casino operations from a new premises.

New developments

Casino (Penalties) Amendment Bill 2024

The Casino Penalties (Amendment) Bill 2024 (Bill) was introduced to Parliament on 1 May 2024 and passed by the Parliament of South Australia on 26 September 2024.

The Bill proposed to amend the *Casino Act 1997* (Act) and make related amendments to the *Gambling Administration Act 2019*.

The Bill proposed to significantly raise a number of penalties, the most significant of which is an increase of the maximum penalty that may be imposed as a result of disciplinary action from $100,000 to $75 million.

The Bill also proposed to establish new causes for the Liquor and Gambling Commissioner (Commissioner) to take disciplinary action against the holder of the casino licence if:

- circumstances come to light that show that the casino licensee, a close associate of the licensee or a designated person is found to have engaged in conduct that constitutes serious misconduct, or
- if a court or tribunal in this State, the Commonwealth or a State or Territory of the Commonwealth has imposed a penalty (whether civil or criminal) on the casino licensee, a close associate or a designated person.

Furthermore, transitional provisions contained within the Bill clarified that the changes being made to the maximum fine that can be imposed by taking disciplinary action, as well as the new causes for taking disciplinary action, will apply retrospectively. This addresses conduct which has occurred prior to commencement of the provisions (should such circumstances come to light), as well as to disciplinary action which has commenced but has not yet reached the stage of determining the penalty.

Parliament passed the Bill without amendment and the Casino Penalties (Amendment) Act 2024 commenced on 21 November 2024.

Independent review into SkyCity

As reported in the 2022-23 publication, the Honourable Brian Martin AO KC was appointed by the Commissioner to conduct an investigation under section 22(2) of the *Casino Act 1997* (Casino Act) in regard to the suitability of SkyCity Adelaide Pty Ltd (SkyCity Adelaide) and SkyCity Entertainment Group Limited (SCEGL).

The investigation is into the suitability of SkyCity Adelaide to continue to hold the casino licence under the Casino Act and the suitability of SCEGL to continue to be a close associate of SkyCity Adelaide.

Details of the matters that Mr Martin was to investigate under delegation from the Commissioner are provided in the 2022-23 publication.

Mr Martin was to provide the Commissioner with a written report of his findings of the investigation by 1 February 2023 unless an extension is negotiated between the Commissioner and Mr Martin.

While Mr Martin's investigation was separate from the proceedings initiated by AUSTRAC in the Federal Court (Court) against SkyCity for alleged serious and systemic non-compliance with Australia's anti-money laundering and counter terrorism financing (AML/CTF) laws, there was clearly some overlap that need to be considered.

Therefore, Mr Martin advised the Commissioner that until the resolution of the AUSTRAC proceedings, it was not possible to determine reliably the question of suitability.

On that basis, the Commissioner put on hold the investigation with regard to an overall determination of suitability.

Update on the review

Following resolution of the AUSTRAC matter in which SkyCity made a number of admissions to the Court, the investigation by Mr Martin resumed, and a preliminary report was submitted to the Commissioner on 20 May 2025.

The Commissioner provided SkyCity with the opportunity to consider the preliminary report and respond to any factual inaccuracies it considered existed.

Revised approved trading system for gaming machine entitlements

Over the past several years, the Government conducted a review of the way the approved trading system for Gaming Machine Entitlements (GMEs) operates. Various options were presented to stakeholders with feedback informing the drafting of regulations; to amend the rules of the approved trading system to change the way it operates from a round-by-round trading-based system conducted only at times as determined by the Commissioner to a transparent open-market based model where trades can be made at any time.

The revised system allows parties interested in potentially trading (selling or purchasing) their GMEs to make offers to do so via an online portal (GMEX - established and managed by CBS) and set the price that they are seeking for each GME at any time. Other parties can accept those offers if they wish.

The Gaming Machines Regulations 2020 were amended on 10 February 2020 to implement the open market-based trading system.

The GMEX public register is published live on the CBS website. Anyone can view offers to sell and expressions of interest to buy GMEs as well as any completed trades. This allows for full transparency on the prices being offered per GME and the number of GMEs that remain to be cancelled to reach the statutory objective.

Details of the revised approved trading system:

GMEX enables GMEs to be listed for sale and traded on commercially negotiated terms and notified to the Commissioner, subject to a requirement that:

- the listing of GMEs for sale, expression of interest to purchase and notification of a successful trade of GMEs between eligible persons be made in the form and manner determined by the Commissioner (the online GMEX marketplace)
- access to the GMEX is restricted to eligible persons, being the holder of a GME, or someone they have given consent to, including provision for a sale listing or expression of interest to purchase to be self-managed by the eligible person (add, update, amend, delete etc.) and notification of an agreed sale to be notified to CBS
- an application to trade GMEs must be supported by such information required by the Commissioner (i.e. landlord, financier, club committee or District Court consent, if applicable) to ensure the lawful right to trade GMEs
- the trading of GMEs between two hotels is prohibited if the GMEs being vested are sourced from a licence transferred to the licensee or a new licence has been granted within the preceding 24 months
- the transfer of the GMEs do not become binding until monies are disbursed by the purchaser to the seller, approval is granted by order of the Commissioner and updated licences issued
- fees for use of the GMEX at various stages of the process have been prescribed by the Minister. The Commissioner may, in the Commissioner's absolute discretion, waive, reduce or refund (in whole or in part) a fee payable by a person under the regulations.

The Commissioner is required to disclose information about the results of each successful GMEX trade and other market information in a public register. The register includes the following information:

- the date of execution of the transfer
- the number of GMEs transferred
- the number of GMEs forfeited to the Commissioner
- the sale price
- local government area where the GME will be located
- gaming machine licence type
- any other particulars relating to the transfer as determined by the Commissioner.

The Commissioner has an oversight role under the revised system, which includes establishing and maintaining GMEX and considering applications for approval of:

- a registered person to be able to use GMEX
- a trade agreement
- to exempt an eligible person from the rule that a for-profit venue is not permitted to sell GMEs from a venue that has been transferred to them within the previous 2 years.

SkyCity Adelaide – Underpayment of Casino Duty - SkyCity Adelaide Pty Ltd v Treasurer of South Australia [2024] HCA 37

- On 11 August 2013, the Treasurer and SkyCity Adelaide Pty Ltd (SkyCity Adelaide) entered into an agreement (the Casino Duty Agreement [CDA]) under which the rates of taxation to be applied to net gambling revenue attributable to casino gaming were agreed to.
- As announced to the ASX and NZX on 22 February 2024, there had been a longstanding contractual dispute between SkyCity Adelaide Pty Ltd and the Commissioner of Taxation (Revenue SA) in relation to the calculation of casino duty (taxation).
- Revenue SA contended that under the terms of the CDA that SkyCity Adelaide is required to pay casino duty on bets placed on gaming machines which are placed using gaming credits converted from loyalty points received through SkyCity's Player Rewards Programme (referred to as converted points). Conversely, SkyCity Adelaide contended that as it receives no payment when converted points are used, that these bets are not taxable and as a result is of the view that it has paid all casino duty required under the CDA.
- Following an application by SkyCity Adelaide to the Supreme Court, the Court of Appeal ruled against SkyCity Adelaide, finding that credits on gaming machines arising from the conversion of loyalty points, when played by customers, are taxable and are not an amount permitted to be deducted when assessing the amount of casino duty that is payable.
- On 6 June 2024, SkyCity Entertainment Group Limited announced to the ASX and NSX that the High Court of Australia has granted SkyCity Adelaide special leave to appeal the South Australian Court of Appeal's judgement on the interpretation of the relevant provisions in the CDA and the treatment of loyalty points.
- As a consequence, the High Court conducted a full hearing of the appeal from the decision of the Court of Appeal on 12 September 2024.
- On 16 October 2024, the High Court delivered its judgement on the matter of the treatment of loyalty points converted to gaming machine play for the purpose of calculating casino duty at the Adelaide casino.
- The High Court confirmed the Court of Appeal's interpretation of the Agreement finding that credits on gaming machines arising from the conversion of loyalty points, when played by customers, are to be included in gaming revenue for the purpose of calculating casino duty.

- SkyCity was required to pay $13.1m in duty plus $24.8m in penalties and interest in relation to the return periods from January 2014 to January 2024, and $0.2m relating to the Treasurer's costs. None of these amounts have been reported as revenue in this edition of the publication.

3.5 Western Australia

Legislation

State legislation governing the regulation, supervision, and control of gambling activities in the Western Australia includes:

- *Betting Control Act 1954*
- *Betting Tax Assessment Act 2018*
- *Casino (Burswood Island) Agreement Act 1985*
- *Casino Control Act 1984*
- *Gaming and Betting (Contracts and Securities) Act 1985*
- *Gaming and Wagering Commission Act 1987*
- *Gaming and Wagering Commission (Continuing Lotteries Levy) Act 2000*
- *Racing and Wagering Western Australia Act 2003*
- *Racing Bets Levy Act 2009*
- *Racing Restriction Act 2003.*

New developments

- A full review and reform of WA's gambling laws is being undertaken to establish a modernised, harmonised, best-practice regulatory framework, covering all gambling activities in WA (except the State Lottery), with a view to introducing a Bill to Parliament in 2028.
- This will finalise the third and final phase of the three-stage legislative reforms arising from the Perth Casino Royal Commission (PCRC) and related matters. The first two phases were implemented through the enactment of the *Casino Legislation Amendment (Burswood Casino) Act 2022,* the ratification of the increase to the casino gaming licence fee and other minor changes to the State Agreement by the *Casino (Burswood Island) Agreement Amendment Act 2023,* and the enactment of the *Gambling Legislation Amendment Act 2024*.
- A Consultation Paper for the *Review and Reform of WA's Gambling Laws* has been published, which closed for submissions on 12 December 2025.
- Western Australia's gambling legislation has not been comprehensively reviewed since the enactment of a range of statutes for regulating the industry up to 71 years ago (between 1954 and 2003).
- The PCRC found the legislative model was "obsolete", and that the legislation was "anachronistic" and "not fit-for-purpose".
- The PCRC only considered casino regulation and not the other functions of the regulator, such as community gaming, wagering on races and events, WA TAB, gambling advertising, licensing and regulating bookmakers and on course totalisators.
- The wholesale review and reform of the gambling legislation will aim to reduce the harms of gambling without imposing an undue regulatory burden on operators and those members of the public who do not require protection.
- The State's reformed gambling legislation will support lawful operators with a view to maximise vitality, tourism, employment and community benefit; have controls to mitigate potential harms; and appropriate sanctions to punish offenders.

General industry information

For the period, the casino gaming operations tax rates were as follows:

- Electronic gaming machines 12.42% on and from 24 December 2015
- Fully automated table games 12.92% on and from 24 December 2014
- Table games 9.37% on and from 24 December 2014

- International commission business tax 1.75% on and from 24 December 2014

As of 30 June 2025, the Perth casino had approval to operate a maximum of 350 table games, and 2,500 electronic gaming machines.

3.6 Tasmania

Legislation

Legislation governing the regulation, supervision, and control of gambling activities in Tasmania includes:

- *Gaming Control Act 1993*
- *Racing Regulation Act 2004* (repealed 1 February 2025)
- *Racing Regulation and Integrity Act 2024* (commenced 1 February 2025)
- *TT-Line Gaming Act 1993* (there is currently no gaming conducted on TT-Line vessels).

New developments

- A new minor gaming regime was successfully implemented in September 2024. The restructured regime offers a modern and streamlined regulatory model, making minor gaming easier to understand while maintaining a high standard of regulatory oversight.
- On 19 November 2024, the Tasmanian Government announced its decision to defer the progress of the mandatory pre-commitment card for gaming machines. The Government announced that it will instead develop a package of measures to reduce harm from gaming machines.

General industry information

- Totalisator and fixed odds wagering are offered in Tasmania by UBET TAS Pty Ltd, a subsidiary of Tabcorp Holdings Limited. UBET TAS offers wagering products on thoroughbred, harness and greyhound racing, including fixed odds wagering products for sports betting and race wagering.
- Bookmakers offer traditional fixed price wagering on course at certain racing events in Tasmania.
- There are two casinos operating in Tasmania: Wrest Point Hotel Casino in Sandy Bay (Hobart) and Country Club Casino at Prospect (Launceston). Both casinos are owned and operated by the Federal Group.
- Ninety hotels and clubs in Tasmania offered gaming in the form of gaming machines and keno. There were also hotels and clubs that offered keno only. The gaming services are monitored by Maxgaming.
- There are no providers of major lotteries currently operating in Tasmania. However, two companies, Tattersall's Sweeps (licensed in Victoria) and Golden Casket (licensed in Queensland), hold foreign games permits that allow their products to be offered from accredited outlets in Tasmania.
- Minor gaming in Tasmania consists of activities such as lucky envelopes (e.g., beer/cash tickets), bingo and raffles conducted for the benefit of not-for-profit organisations. New minor gaming regulatory arrangements came into effect in September 2024, which included updates to rules, conditions and additional exemptions.

Notes to the tables for 2024–25

Racing and sports betting	Government revenue is primarily derived from a point of consumption tax. In addition, UBET TAS pays an annual wagering levy, equivalent to 925 000 fee units. The levied amount has not been included in the government revenue from wagering figures.
All	Expenditure data reported by Tasmania in years prior to 2019-20 has been monthly in arrears, aligning with timing of taxation collected. Expenditure data for 2019-20 onwards is shown in the month the activity occurred.

Notes to the tables for 2024–25

Gaming machines	The Government revenue from gaming machine figure does not include: • the levy on all gaming machine licensees of 0.75% of gross gaming machine revenue • the two separate levies on all gaming machine licensees of 0.4% of net gaming machine revenue.
Sports betting	Expenditure figures for sports betting and racing are derived from ACT's betting operations tax from 2019-20.

3.8 Northern Territory

Legislation

Legislation governing the regulation, supervision, and control of gambling activities in the Northern Territory includes:

- *Gaming Control Act 1993*
- *Gaming Machine Act 1995*
- *Racing and Wagering Act 2024*
- *Soccer Football Pools Act 1978*
- *Totalisator Licensing and Regulation Act 2000.*

New developments

In July 2024, the *Racing and Wagering Act 2024* took effect, replacing the *Racing and Betting Act 1983* and the *Unlawful Betting Act 1989*. The new Act introduces a Wagering Levy for betting exchange and sports bookmaker licensees, payable monthly and based on activity from the previous month. For betting exchanges, the levy is calculated on total commission retained, while for sports bookmakers it applies to net wagering turnover. The Regulations set the rate at 0.05% and allow annual deductions of up to $250,000 for approved community donations or sponsorships.

All levy payments are directed to the Racing and Wagering Fund, which supports regulatory operations, integrity functions, training, research, and harm-minimisation initiatives across the Northern Territory.

Notes: These data should be read in conjunction with the explanatory notes.

(1) Excludes community keno, from this period on.
(2) Community keno was previously included in casino turnover.
(3) Includes Sports Bookmakers, On course, Betting exchange and Totalisator, from this period on.
(4) Licensee(s) relaunched.
(5) Pools was withdrawn from the Australian Lottery Market on 23 June 2018.
(6) Includes Mail-order lotteries.
(7) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.
(8) Revised due to change in methodology for estimating proportion attributable to NT residents.
(9) Unavailable data, from this period on. Data categorised by customer location is not collected. Prior to this period, figures reflected activity by all customers (both within and outside of the NT, including international customers) of NT licensed providers.
(10) Prior to this period, figures reflected activity by all customers of NT licensed providers, regardless of physical location and residency. From this period on, figures reflect lottery tickets physically sold from NT retail premises and via the internet to NT residents.

Notes: These data should be read in conjunction with the explanatory notes.

(1) Excludes community keno, from this period on.
(2) Community keno was previously included in casino expenditure.
(3) Includes Sports Bookmakers, On course, Betting exchange and Totalisator, from this period on.
(4) Licensee(s) relaunched.
(5) Pools was withdrawn from the Australian Lottery Market on 23 June 2018.
(6) Includes Mail-order lotteries.
(7) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.
(8) Revised due to change in methodology for estimating proportion attributable to NT residents.
(9) Unavailable data, from this period on. Data categorised by customer location is not collected. Prior to this period, figures reflected activity by all customers (both within and outside of the NT, including international customers) of NT licensed providers.
(10) Prior to this period, figures reflected activity by all customers of NT licensed providers, regardless of physical location and residency. From this period on, figures reflect lottery tickets physically sold from NT retail premises and via the internet to NT residents.

Notes: These data should be read in conjunction with the explanatory notes.

(1) Includes Sports Bookmakers, On course, Betting exchange and Totalisator, from this period on.
(2) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.
(3) Revised due to change in methodology for estimating proportion attributable to NT residents.

Notes: These data should be read in conjunction with the explanatory notes.

(1) Includes Sports Bookmakers, On course, Betting exchange and Totalisator, from this period on.
(2) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.
(3) Revised due to change in methodology for estimating proportion attributable to NT residents.

Notes: These data should be read in conjunction with the explanatory notes and other turnover tables in this publication.

(1) Includes Sports Bookmakers, On course, Betting exchange and Totalisator, from this period on.

(2) Point of consumption tax introduced and applied from 1 January 2019. This figure only contains data from July 2018 to December 2018, pre point of consumption tax.

(3) Does not include turnover for wagering operators authorised to conduct betting operations in South Australia.

(4) Total Turnover derived from TAB Limited and NSW Licensed Bookmaker's authorised under Section 16(1) and 19(2) of the Betting and Racing Act 1998.

(5) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.

(6) Revised due to change in methodology for estimating proportion attributable to NT residents.

(7) First available full year data for point of consumption data.

(8) Figure represents Pari-mutuel and Sports bet only. Trackside figure (139.560) not included.

(9) Retrospective adjustments typically resulting from amended returns from betting operators and/or compliance activity.

(10) NSW Turnover derived from TAB Limited and NSW Licensed Bookmaker's authorised under Section 16(1) and 19(2) of the Betting and Racing Act 1998.

(11) From this period on, wagering turnover reflects wagering by Tasmanian residents with all licensed providers, including those in other jurisdictions. Prior to this period, wagering turnover reflects wagering with Tasmanian licensed providers.

(12) Figure represents Pari-mutuel and Sports bet only. Trackside figure (111.991) not included.

(13) Retrospective adjustments to betting tax returns for previous periods are typically due to betting operators amending past returns, new registrations, and/or compliance activity.

(14) Now contains turnover data acquired from TAB Limited and Betting Service Providers who have been liable to pay Point of Consumption Tax and lodged an annual reconciliation return.

(15) Turnover figure unavailable.

(16) Bookmakers Turnover data unavailable. 1/7/2022 - PoCT tax increase from 10% to 15%.

(17) For this and previous periods, reflects the wagering turnover of Tasmanian licensed providers only.

Notes: These data should be read in conjunction with the explanatory notes and other turnover tables in this publication.

(1) Includes Sports Bookmakers, On course, Betting exchange and Totalisator, from this period on.
(2) Point of consumption tax introduced and applied from 1 January 2019. This figure only contains data from July 2018 to December 2018, pre point of consumption tax.
(3) Does not include turnover for wagering operators authorised to conduct betting operations in South Australia.
(4) Total Turnover derived from TAB Limited and NSW Licensed Bookmaker's authorised under Section 16(1) and 19(2) of the Betting and Racing Act 1998.
(5) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.
(6) Revised due to change in methodology for estimating proportion attributable to NT residents.
(7) First available full year data for point of consumption data.
(8) Figure represents Pari-mutuel and Sports bet only. Trackside figure (139.560) not included.
(9) Retrospective adjustments typically resulting from amended returns from betting operators and/or compliance activity.
(10) NSW Turnover derived from TAB Limited and NSW Licensed Bookmaker's authorised under Section 16(1) and 19(2) of the Betting and Racing Act 1998.
(11) From this period on, wagering turnover reflects wagering by Tasmanian residents with all licensed providers, including those in other jurisdictions. Prior to this period, wagering turnover reflects wagering with Tasmanian licensed providers.
(12) Figure represents Pari-mutuel and Sports bet only. Trackside figure (111.991) not included.
(13) Retrospective adjustments to betting tax returns for previous periods are typically due to betting operators amending past returns, new registrations, and/or compliance activity.
(14) Now contains turnover data acquired from TAB Limited and Betting Service Providers who have been liable to pay Point of Consumption Tax and lodged an annual reconciliation return.
(15) Turnover figure unavailable.
(16) Bookmakers Turnover data unavailable. 1/7/2022 - PoCT tax increase from 10% to 15%.
(17) For this and previous periods, reflects the wagering turnover of Tasmanian licensed providers only.

Notes: These data should be read in conjunction with the explanatory notes and other expenditure tables in this publication.

(1) Includes expenditure for wagering operators authorised to conduct betting operations in South Australia, from this period on.

(2) Includes Sports Bookmakers, On course, Betting exchange and Totalisator, from this period on.

(3) Point of consumption tax introduced and applied from 1 January 2019. This figure only contains data from July 2018 to December 2018, pre point of consumption tax.

(4) Total TAB Limited wagering revenue and net NSW revenue derived from Betting Operators as per section 13A of the Betting Tax Act 2001.

(5) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.

(6) Revised due to change in methodology for estimating proportion attributable to NT residents.

(7) First available full year data for point of consumption data.

(8) Figure represents Pari-mutuel and Sports bet only. Trackside figure (29.289) not included.

(9) Retrospective adjustments typically resulting from amended returns from betting operators and/or compliance activity.

(10) Net NSW revenue derived from TAB Limited and Betting Operators as per section 13A of the Betting Tax Act 2001.

(11) From this period on, wagering expenditure reflects wagering by Tasmanian residents with all licensed providers, including those in other jurisdictions. Prior to this period, wagering expenditure reflects wagering with Tasmanian licensed providers.

(12) Figure represents Pari-mutuel and Sports bet only. Trackside figure (23.205) not included.

(13) Retrospective adjustments to betting tax returns for previous periods are typically due to betting operators amending past returns, new registrations, and/or compliance activity.

(14) Figure represents Pari-mutuel and Sports bet and Trackside.

(15) 1/7/2022 - PoCT tax increase from 10% to 15%, TAB Parimutuel Expenditure now collected from the Annual POCT Reconciliation report.

Notes: These data should be read in conjunction with the explanatory notes and other expenditure tables in this publication.

(1) Includes expenditure for wagering operators authorised to conduct betting operations in South Australia, from this period on.

(2) Includes Sports Bookmakers, On course, Betting exchange and Totalisator, from this period on.

(3) Point of consumption tax introduced and applied from 1 January 2019. This figure only contains data from July 2018 to December 2018, pre point of consumption tax.

(4) Total TAB Limited wagering revenue and net NSW revenue derived from Betting Operators as per section 13A of the Betting Tax Act 2001.

(5) The 2019–20 NT wagering Turnover and Expenditure figures are an estimate of NT residents only. This estimate is provided to avoid double counting given other jurisdictions are now operating under a point of consumption tax arrangement. In this regard, the 2019–20 figures represent a significant break in time series and comparisons with previous figures are not appropriate.

(6) Revised due to change in methodology for estimating proportion attributable to NT residents.

(7) First available full year data for point of consumption data.

(8) Figure represents Pari-mutuel and Sports bet only. Trackside figure (29.289) not included.

(9) Retrospective adjustments typically resulting from amended returns from betting operators and/or compliance activity.

(10) Net NSW revenue derived from TAB Limited and Betting Operators as per section 13A of the Betting Tax Act 2001.

(11) From this period on, wagering expenditure reflects wagering by Tasmanian residents with all licensed providers, including those in other jurisdictions. Prior to this period, wagering expenditure reflects wagering with Tasmanian licensed providers.

(12) Figure represents Pari-mutuel and Sports bet only. Trackside figure (23.205) not included.

(13) Retrospective adjustments to betting tax returns for previous periods are typically due to betting operators amending past returns, new registrations, and/or compliance activity.

(14) Figure represents Pari-mutuel and Sports bet and Trackside.

(15) 1/7/2022 - PoCT tax increase from 10% to 15%, TAB Parimutuel Expenditure now collected from the Annual POCT Reconciliation report.
